ARGOS | AUTONOMOUS CYBERSECURITY PLATFORM

VIRTUAL CISO FOR SMES · COPILOT FOR EXPERTS

Your cyber team, augmented by AI agents

AGENTIC AI | DATA | CYBERSECURITY | SOFTWARE ENGINEERING | CLOUD & DEVSECOPS

Jérémie Nagi · October 2026

How do we face cyber threats in the age of AI?

02 THE NEED

20 %

of French SMEs say they are prepared for cyber risk.

Cybermalveillance / CPME · 2025

89 %

of companies with 10 to 49 staff employ no IT specialist.

Eurostat France · 2024

77 %

of SMEs spend under €2,000 a year on IT security.

TPE-PME Barometer · 2025

80 %

of French people have data for sale on the dark web.

Agence France Presse · 08/Oct/2026

16 bn

credentials exposed in data leaks: the largest leak in internet history.

Cybernews / AP · June 2025

2 Headlines

- Critical PHP vulnerability: 70% of websites affected.
- Supermarket fridges hacked.

12 & 21/Oct/2026

03 THE ANSWER

OSINT

- Extraction · API · crawling · scraping
- Enrichment
- Data engineering · processing · analysis · intelligence

OFFENSIVE

- Web & API pentest
- Network & infra pentest
- Active Directory
- AI security: LLM & agents
- Tools, rules & evidence

VALIDATE & MEASURE

continuous validation of defenses

DEFENSIVE

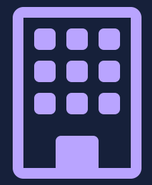

- Methodologies
- Workflow
- Tool integration
- Detection
- Remediation
- Forensic

GRC

- Governance
- Security policy
- Compliance: ISO & GDPR

04 THE 3 PERSONAS

SME

"I want to know how to protect myself at the lowest cost."

MSP

"I want to sell and strengthen my security services at a lower cost."

CYBER EXPERT

"I want to automate the repetitive work and keep technical control."

05 AGENTIC DESIGN

01 AGENT LOOP

Decision → action → observation, with stop conditions.

02 PLANNING

Breakdown, goals, dependencies on other agents, priorities and replanning.

03 CONTEXT ENGINE

Selecting, compressing and retrieving useful context.

04 STATE MANAGEMENT

States, results, checkpoints and resuming after an interruption.

05 MEMORY SYSTEM

Persistent memory, mission history, knowledge and reusable methods.

06 TOOL RUNTIME

Tool selection, execution, errors and validation.

07 ORCHESTRATION MULTI-AGENT

Delegation, communication and conflicts.

08 MULTI-SURFACE & MULTI-ENVIRONMENT

Local, web, CLI, API, mobile. Linux, Windows, Active Directory, networks, cloud.

09 LEARNING ENGINE

Recorded experience; versioned skills, workflows and parameter management.

10 SAFETY & EVALUATION

Permissions, sandbox, evidence, metrics and non-regression.

06 TECHNICAL ZOOM / AGENTIC CORE

01 MEMORY SYSTEM

Persistent Memory
Information across sessions and missions

Long-Term Storage
Database · knowledge graph

User & Mission History
History of assets, actions and evidence

Data Indexing & Traceability
SQL index · Embeddings · metadata · provenance

02 CONTEXT ENGINE

Context Awareness
Goal · scope · task · current state

Knowledge Retrieval
Hybrid search (RAG / BM25 / embeddings)

Dynamic Context
Observation and update after each action

Context Compression
Ranking · Reranking · summaries · vector similarity · token budget limit

03 LEARNING ENGINE

Experience Capture
Traces · success / failure · feedback

Learning & Adaptation
Proposed workflows, parameters, skills

Evaluation Gate
Benchmarks · false positives · regressions

Versioning & Rollback
Human review · promotion · rollback

07 ROADMAP

DONE

FOUNDATIONS

- Needs & market
- Architecture & specs
- Traceable SIRENE OSINT
- Markdown reports

DONE

ATTACK P1 · PENTEST

- Ed25519-signed missions
- Bounded Nmap, no shell
- SHA-256 evidence
- Adaptive recon
- CI Ruff + pytest

IN PROGRESS

AGENT V0

- Agent V0 architecture
- Agent loop
- More tools, under policy
- API + UI connected
- Lab testing

NEXT

FULL PRODUCT

- Web, infra & AD pentest
- AI security: LLM & agents
- Defensive & GRC
- Advanced OSINT & CTI
- Multi-agent & learning

08 COMPETITION

A fast-growing agentic market.

COUNTRY / VENDOR	LAUNCH	DOMAIN	PUBLIC PRICE
FR **Escape**	06/2026	Offensive	**$3,000 / test**
FR **Fleuret AI**	2026	Offensive	**€4,000 / app**
FR **Mindflow**	06/2025	Orchestration	**$30,000 / year**
US **XBOW**	07/2024	Offensive	**From $4,000 / test**
US **NodeZero**	2021	Offensive	**$25,000 / year**
US **7AI**	02/2025	Defensive	**$20 / alert**
US **AttackIQ**	07/2026	Continuous validation	**$4,995 / 30 days**

09 BUSINESS PLAN

SME

Guided mode

€49 / month

+ €3 / device

Extra credits

- Dashboard and chatbot
- Automated workflows
- Monitoring and alerts

MSP

Multi-client mode

€199 / month

+ €19 / client
+ €1.50 / device

Extra credits

- Multi-client management
- Shared reports and evidence
- Action planning

CYBER EXPERT

Expert mode

€49 / month

per user

Extra credits

- Raw results and evidence
- Customizable workflows
- Custom AI agents and tools

Estimated running cost: ≈ €300/month · AI + hosting

10 INTERFACE MOCK-UP

Web mock-up

Mobile mock-up
